Philadelphia

City	Population	% White	Median Household Income	Mean Income	% Poverty	% Bachelor's Degree or Higher
Philadelphia, PA	1,584,064	40.7%	$45,927	$27,924	24.3%	29.7%

Philadelphia is an excellent case for examining how racial and SES patterns distribute over neighbourhoods in a white-minority city. Its status as a very fast-gentrifying city with high levels of poverty make for an interesting redistribution of SES across neighbourhoods. Furthermore, it's a popular student city (therefore its population varies quickly and consistently), and highly metropolitan.
